FOREWORD

Crime in Michigan, 1988 marks the thirtieth year that the Michigan State Police has compiled and published the annual crime statistics for the state. Ninety-seven percent of all law enforcement agencies in Michigan participate in the Uniform Crime Reporting program. While this report does not claim to identify the total crime picture within the state, it represents the best attempt to accurately present the statistics submitted by the majority of its law enforcement agencies.

Since its inception in 1959, the state's Uniform Crime Reporting program has strived to be responsive to the needs of the criminal justice community as well as state and local agencies and others who use crime statistics. The program has continued to develop both in quality and scope.

This report is possible only through the cooperation and diligence of the contributing agencies. Because of their efforts, we are able to present timely, accurate criminal justice data.

R. T. Davis

MICHIGAN

Michigan ranks 23rd in size among the fifty states. It is characterized by a potpourri of industrial cities, vast stretches of wilderness, 19 million acres of forest, acre upon acre of fruit orchards, and hundreds of small towns and villages. Its two peninsulas are divided into 83 counties.

- Counties with lowest populations

CRIME REPORTING IN MICHIGAN

ACT 319

PUBLIC ACTS 1968 (as amended)

AN ACT to provide a uniform crime reporting system; to provide for the submitting of such report to the department of state police; to require submission of the report by certain police agencies; to require the reporting on wanted persons and stolen vehicles; and to vest the director of the department of state police with the authority to prescribe the reporting form and its contents.

The people of the State of Michigan enact:

Sec. 1. The police department of each city or village, any duly constituted police department of a township, and the sheriff's department of each county, once each month upon a date and form prescribed and furnished by the director of the department of state police, shall forward to the department of state police a crime report. Each reporting department shall report only on cases within its jurisdiction and upon which it is making, or has made, the primary police investigation. The report shall be called the uniform crime report and shall cover crimes reported and otherwise processed during the month preceding the month of the report. It shall contain the number and nature of offenses committed, the disposition of such offenses and such other information as the director of state police shall specify relating to the method, frequency, cause and prevention of crime. Under no circumstances shall the name of any person be reported.

Sec. 2. Upon receipt of the monthly uniform crime reports from the reporting agencies, the department of state police shall prepare a statewide compilation of the statistics contained therein and the resulting statistical compilation shall be available to any governmental law enforcement agency in the state, the judiciary committees of the Michigan state senate and the Michigan state house of representatives, and the federal bureau of investigation, upon request. The statistics made available through the uniform crime report shall be used for the purpose of studying the causes, trends and effects of crime in this state and for intelligence upon which to base a more sound program of crime detection and prevention and the apprehension of criminals.

Sec. 3. Any governmental police agency, not falling within the description of those required to submit the monthly uniform crime report set forth in section 1, which desires to submit such a report, shall be furnished with proper forms by the department of state police. When a report is received by the department of state police from a governmental police agency not required to make such report, the information contained therein shall be included within the monthly compilation provided for in section 2.

Sec. 4. The chief of police of each city or village and of each township having a police department, and the sheriff of each county within this state, shall report to the department, all persons wanted by, and all vehicles stolen from, their primary police jurisdictions. The report shall be made as soon as is practical after the investigating department either ascertains that a vehicle is stolen or obtains a warrant for an individual's arrest or determines that they have reasonable grounds to believe that the individual committed a crime. In no case shall this time exceed 12 hours after the reporting agency determines that it has grounds to believe that a vehicle was stolen or that the wanted person should be arrested.

Sec. 5. When at any time after making a report required by section 4 it is determined by the reporting agency that a person is no longer wanted because of this apprehension, or any other factor, and when a vehicle reported stolen under section 4 is recovered, the chief of police or sheriff of the reporting agency shall immediately notify the department of state police in a manner prescribed by the department.

Sec. 6. The provisions of this act do not apply to misdemeanor traffic offenses, or for the violation of any city, village or township ordinance. The provisions of this act shall not be construed to in any way affect existing or future laws and procedures governing the reporting of persons wanted for traffic law violations or for the violation of city, village or township ordinances.

Sec. 7. The chief of police of each city or village, the chief of police of each township having a police department, and the sheriff of each county within this state shall report to the department of state police, in a manner prescribed by the department, the following information related to crimes of domestic assault:

(a)The number of assaults reported which involve an adult and a minor and the disposition of those offenses.

(b)The number of assaults reported which involve 2 male adults or 2 female adults and the disposition of those offenses.

(c)The number of assaults reported which involve 1 male adult and 1 female adult and the disposition of those offenses.

(d)The number of assaults reported which involve a person and his or her spouse and the disposition of those offenses.

(e)Other statistics the director of the department of state police considers necessary to obtain accurate and reliable data on the incidence of domestic assault in this state.

THE MICHIGAN UNIFORM CRIME REPORTING SYSTEM

Michigan participates in a voluntary national program to collect crime statistics. The program is administered by the Federal Bureau of Investigation. The state's Uniform Crime Reporting system was instituted in 1959 when the State Police requested all police and sheriff agencies to voluntarily submit crime data to them for the purpose of compiling a uniform crime report. Michigan's Uniform Crime Reporting (UCR) program is designed to meet federal reporting requirements as well as to provide more detailed statistical information for state law enforcement agencies.

The number of participating agencies was small in the beginning. The larger departments made up the majority of the contributors. The enactment of Michigan Public Act 319 in 1968, making submission of crime data mandatory, greatly spurred the growth of the program. Smaller agencies began to participate as well as campus police departments and airport security police.

Initially, only summary data was collected. Since the introduction of incident-based reporting in 1976, the Michigan UCR program has operated dual systems. The main difference between the summary and incident- based systems is the degree of detail in reporting. Agencies submitting summary data report aggregate counts of offense and arrest information for both index and non-index crimes. The types of data tallied include the number of offenses, clearances, types and values of stolen and recovered property, and the age, race, sex and ethnic origin of persons who are arrested. Under the incident system, agencies collect more detailed information regarding individual crime incidents and arrests. This information is submitted in separate "reports" using prescribed data elements and data values to describe each incident and arrest.

Due to the great variation in definitions of criminal offenses, standardized definitions were adopted for all offenses to provide nationwide uniformity. Reporting agencies are required to submit data in accordance with these national definitions. Offenses are divided into Index and Non-Index categories. Because of their seriousness and frequency of occurrence, eight offenses (murder, rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson) comprise the Crime Index and serve as indicators of our nation's crime experience.

Offenses are reported to UCR daily, weekly and monthly and are included without regard to the : age of the offender; value of property involved; recovery of stolen property; arrests; or action by prosecution. Unfounded complaints are not included in the crime tables. The same categories are used for both offenses and arrests. Sub-categories are added for robbery, assault, burglary, and larceny offenses to provide a more detailed look at these offenses. Agencies also provide statistics on domestic assaults. Additional information on homicides is collected through a supplemental homicide report.

Michigan's UCR program supports various levels of submission ranging from manually processed forms to automated tapes to on-line data collection. Ninety three percent of contributors participate in the incident-based system, reporting seventy percent of the state's crime statistics. The remaining thirty percent is reported by agencies on the summary system. Information submitted through both these systems provides a comprehensive data base to define the type and extent of crime in Michigan. Data is extracted from the UCR transactions monthly and submitted to the FBI Uniform Crime Reporting program which currently operates a summary system.

Each contributing agency reports only offenses or arrests for offenses committed within its jurisdiction. These offenses represent violations of Michigan statutes and local ordinances. Crime figures presented in this report are law enforcement statistics and are not to be confused with judicial or penal statistics. This report reflects a compilation of the data submitted to the federal program in 1988.

COMMENTARY ON 1988 CRIME DATA

The information presented in this report provides a study of crime - location, frequency and type of offenses and arrests. It can be used to assist law enforcement agencies in identifying crime patterns. It **should not** be used as a measure of an individual agency's workload.

CRIME FACTORS

When reviewing and comparing crime statistics, it is important to keep in mind that many factors affect the type and volume of crime that occurs in a given area. These factors have a great impact on the incidence of crime. Consider:

Economic conditions, including median income and job availability

Density and size of the population (urban vs rural)

Climate, including seasonal weather conditions

Relative stability of population (seasonal, transient)

Educational, recreational, and religious characteristics

Composition of the population (age, sex, race)

Effective strength of the police force

Policies of the prosecuting officials and the courts

Attitude of public towards law and enforcement problems

Administrative and investigative emphases of local law enforcement

Degree of adherence to crime reporting standards.

CRIME RATES

A Crime Rate represents the number of crimes reported for each 100,000 population. It provides a measure of the severity of a crime problem within a given jurisdiction. The rate is calculated by multiplying the number of offenses by 100,000. That number is then divided by the population of the service jurisdiction based on 1980 census figures.

When using this rate for comparisons, keep in mind that certain large cities and tourist areas report crime that may be the result of transient populations. The crime rates for these areas do not reflect these special populations. Also, student populations for colleges and universities are used only to compute the crime rate for the facility, not for county and total state rates.

URBAN VS RURAL CRIME

Taking into account the demographic changes in Michigan during the eighties, the criteria used to differentiate between urban and rural crime was changed in 1984. **URBAN** crime is defined as all activity reported by the following:

A law enforcement agency servicing an area that is within an area designated by the Census Bureau as urbanized (regardless of the size of its service population or type of agency). Note: an urbanized area is comprised of incorporated places and adjacent densely settled surrounding areas that together have a minimum population of 50,000;

A township police department servicing an area that may be only partially included in an urbanized area but with a population density of at least 500 persons per square mile;

A municipal police department servicing a population of 5000 or more, located outside an urbanized area (Exception: a municipal department with a service population of less than 5000 with boundaries that are adjacent to a municipality with a population of 5000 or greater);

A campus police department with a service area located in a municipality designated as urban, or with a student population of 5000 or more.

All other crime is defined as **RURAL**.

TERMINOLOGY

Certain terms are used consistently throughout the report. Definitions for Uniform Crime Reporting purposes include:

Clearance - refers to the solution of a particular crime, either by the arrest of the offender or through an Exceptional Clearance.

Exceptional Clearance - made when an investigation has established an offender, there is enough information to support an arrest charge, the location of the offender is known, but there is a reason outside police control that prevents arresting, charging and prosecuting the offender.

Clearance by Arrest - an offense is cleared when an offender has been identified, sufficient evidence to formally charge the suspect has been obtained, and the offender has been ordered to appear in court.

Trends - show the fluctuation from year to year, provide an added perspective to study crime.

Index Crimes - serve as indicators of the state's crime experience, include Murder, Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. Definitions for these crimes are included with the Offense and Arrest Data.

Non-Index Crimes - violations of state and local law including:

Negligent Manslaughter - deaths determined by police investigation to be primarily caused by gross negligence (except motor vehicle accidents).

Other Assaults - all non-aggravated assaults and attempted assaults.

Forgery & Counterfeiting - making, altering, uttering and possessing forged documents.

Fraud - making, altering, presenting, advertising, converting and obtaining money under false pretenses.

Embezzlement - all offenses concerning embezzlement and conversion.

Stolen Property - offenses and attempts involving buying, receiving, and possessing such property.

Vandalism - malicious destruction of property.

Weapons - (carrying, possessing) all violations of firearm registrations.

Prostitution & Commercialized Vice - sex offenses, attempts of a commercialized nature.

Sex Offenses - all offenses and attempts against chastity, common decency and morals (except rape and prostitution).

Drug Laws - possession and unlawful use, sale, or distribution of controlled substances.

Gambling - promoting, permitting or engaging in gambling.

Offenses Against Family & Children - non-support, desertion, neglect and abuse.

Driving Under the Influence - operating a vehicle under the influence of liquor or drugs.

Liquor Laws - all violations of the liquor laws with the exception of driving under the influence and common drunkenness.

Drunkenness - drunk and disorderly and common drunkenness.

Disorderly Conduct - offenses involving committing a breach of the peace.

Vagrancy - offenses of vagabonds, beggars and loiterers.

All Other Offenses - all other violations.

MICHIGAN LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Since 1972, the Uniform Crime Reporting Program has been collecting data concerning the number and nature of assaults and deaths of on-duty law enforcement officers. The total number of assaults on officers in 1988 decreased 3.1 percent from 1987 figures.

OFFENSE AND ARREST DATA FOR THE STATE

CRIME IN MICHIGAN-1988

The number of index crime offenses reported to Michigan law enforcement agencies in 1988 declined 5.7 percent compared to 1987 figures. The violent crimes of murder, robbery and aggravated assault along with property crimes of burglary, larceny, motor vehicle theft and arson showed a decrease. The one exception was rape which increased by 3.7 percent.

Total crime, which includes index as well as all other reported offenses, was down 3 percent from last year. A crime rate of 13,354 per 100,000 population equates to one reported crime for every seven Michigan residents.

Murder, down 10.3 percent, showed the greatest decline. **Burglary** decreased for the fifth year in a row with figures down 9.3 percent from 1987. For the first time since 1984, both **Aggravated Assault**, down .5 percent, and **Larceny**, down 5.2 percent, showed a decrease. **Robbery** continued to decline with a 12.6 percent decrease from 1987. **Arson** was down 6.9 percent and **Motor Vehicle Theft** decreased 1.8 percent.

Total arrests were up 5.4 percent. Juveniles accounted for 10.4 percent of all those arrested.

MURDER

In 1988, there were 1,003 murders in the state, a decline of 10.3 percent from 1987 figures. The majority of the victims were black (71.5%), male (77.8%) and in the 25-39 age group (43.8%). Sixty-five percent were killed by some type of firearm and 47.3 percent were murdered by a family member or acquaintance. In 37.1 percent of the incidents, the relationship of the victim to the offender was unknown. The greatest number of the murders resulted from arguments (35.9%) followed by undetermined causes (31.2%) and during the commission of another crime (20.6%).

TOTAL INDEX

1988 CRIME RATE BY COUNTY
(per 100,000 population)

Based on 1988 reported offense data and 1980 U.S. Census populations.

- 5275.0 - 8612.0
- 3711.0 - 5058.0
- 2865.0 - 3661.0
- 1784.0 - 2852.0

Because of their seriousness and frequency of occurrence, eight offenses (murder, rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft and arson) are designated as Index Crimes. They serve as indicators of the nation's crime experience.

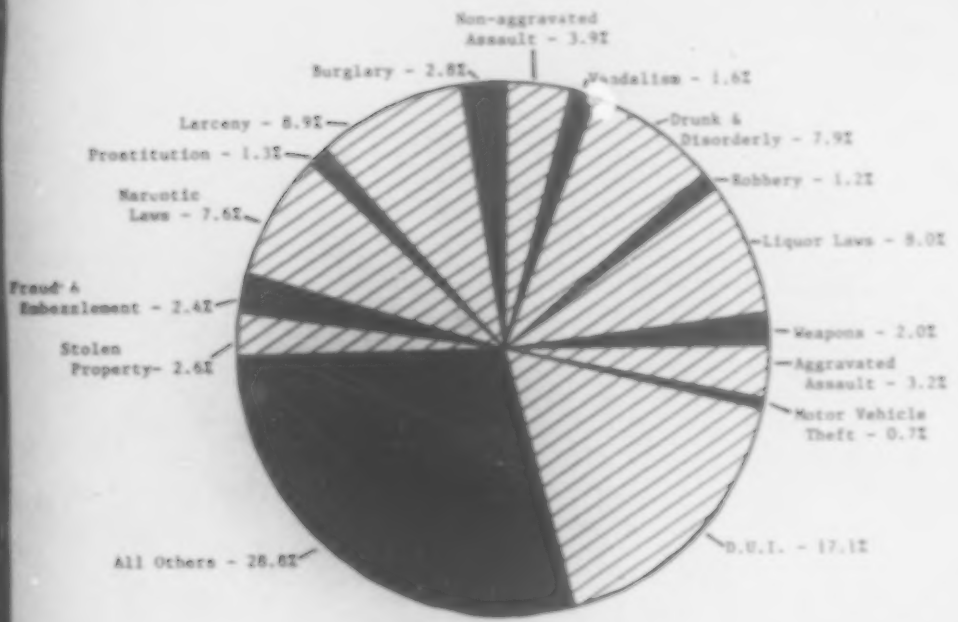
ADULT AND JUVENILE ARRESTS

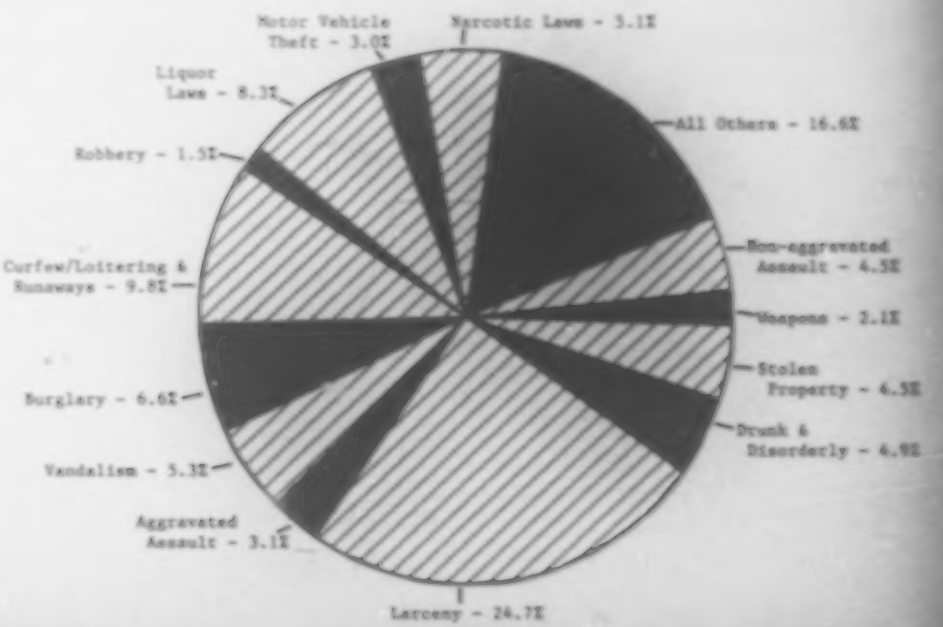
1988

PERCENT DISTRIBUTION OF ADULT ARRESTS



1988

PERCENT DISTRIBUTION OF JUVENILE ARRESTS



POPULATION PYRAMIDS

A population pyramid is intended to graphically show the distribution of persons by age and sex. Each bar shows the percent of the total population in that age group. The total of all the bars is 100 percent.

The pyramids displayed below show the characteristics of Michigan's 1987 and 1988 Total Arrests. This year, the bar designations have been changed to reflect the age groupings in the uniform crime reports. The 1988 pyramids separate ages 10 and under from the 11-14 age group. In 1987, arrests for youths 10 and under were included in the 10-14 age group.

When comparing 1987 and 1988 distribution, there is only minimal change in the cohorts. There is a very slight increase, less than one percent, in the number of males arrested in the 30-34 age group and a slight decrease, also less than one percent, in the number of males arrested in the 15-19 cohort.
